

Honda Trimmers

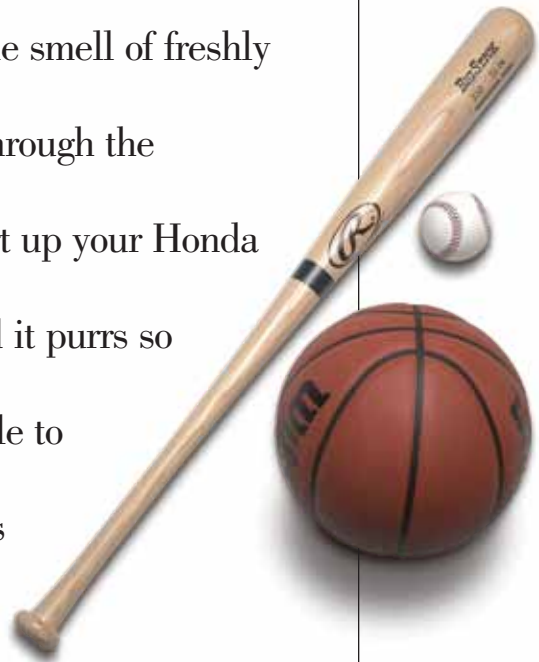

Very Smart.

It's early evening and the smell of freshly cut grass is lingering through the neighborhood. You start up your Honda String Trimmer and it purrs so quietly, you're still able to hear the sound of kids playing down the street.

There's nothing quite like this time of year. As you take it all in, you admire the professional job your Honda String Trimmer does. It's no wonder you have the best looking yard on the block.

Just as you finish trimming, you hear the familiar song of the ice cream truck. You can't help but smile

when you reach into your pocket and find a few dollars. You can't think of a better way to end the day.

Honda has the right trimmer for the job

From the HHT25SLTA to the HHT35SUKAT, Honda String Trimmers are designed with Very Smart features to take on even thick grass and heavy brush without bogging down. The excellent balance and feel of these trimmers makes them easy to hold and work with, which in turn, makes even the toughest job seem like a breeze.

Only Honda offers “Quiet Line” trimmer heads as standard on SLTA models and the durable Kwik Loader® feed head on the SUKAT model. Not to mention, safety goggles are included with every trimmer.

Honda backs it all up with a 2-year residential and 1-year commercial warranty along with a limited lifetime HHT drive cable warranty*.

*Drive cable limited lifetime warranty is valid for the original purchaser only. See your distributor for details.

4-STROKE ENGINE

The Honda Mini 4-stroke advantage

Thanks to Honda Mini 4-stroke technology, every Honda String Trimmer is highly fuel efficient and offers excellent torque for demanding jobs. Plus, they run on regular gasoline so there's never a need to mix gas and oil. Like all Honda 4-strokes, they're exceptionally quiet and clean running. The end result is less smoke and less odor than the competition, which literally means less headache for the user.

All Honda String Trimmers offer exclusive 360° inclinable 4-stroke engines, which means they can be used and rotated in any position.

GX35 / HHT35

Designed to handle various applications, Honda offers two different models of the durable Mini 4-stroke engine: the GX25 and GX35. Choose the one that best fits the job at hand.

GX25 / HHT25

HHT25SLTA

Honda's lightest 4-stroke trimmer

For homeowner and commercial trimming needs, the HHT25SLTA Honda String Trimmer provides ample power and torque. Equipped with a standard loop handle, this lightweight trimmer is especially easy to use. And because of the Honda Quick Start System, the HHT25SLTA requires minimal effort to start. This model can easily accommodate a variety of cutting blades with an optional barrier kit.

The HHT25SLTA comes equipped with solid trigger design for excellent durability.

HHT35SLTA

Heavy-duty 4-stroke trimmer

The HHT35SLTA Honda String Trimmer is ideal for the commercial user or homeowner whose requirements include heavy-duty trimming and brush removal. This model comes standard with loop handle, semi-matic line feed for ease of use and single harness for superior balance and support.

Honda trimmers can accommodate a variety of 9" or 10" cutting blades. Blade Barrier Kit (above right) also available.

New Deflector design offers operator excellent visibility.

All Honda Trimmers come standard with a single or double harness for added control. (Double harness standard with HHT35SUKAT)

HHT35SUKAT

Commercial 4-stroke trimmer/brush cutter

The Honda HHT35SUKAT string trimmer features a commercial “bike” handle design for the serious professional whose needs range from regular trimming to clearing heavy brush, saplings and small trees. This model comes standard with a durable Kwik Loader® feed head, double harness and 10" saw blade.

Commercial “bike” handle provides increased leverage and precise control.

In addition to the supplied Kwik Loader® trimmer head and 10" saw blade, available accessories include a wide variety of special purpose 9" and 10" blades. Blade Barrier Kit (above right) also available.

The adaptable Honda SUKAT trimmer is perfect for any job. It can operate with a string trimmer head or a series of different blades, depending on the task at hand.
